DECLARATION REGARDING THE USE OF WOOL FROM SHEEP

CITES, the Convention on International Trade in Endangered Species of Wild Fauna and Flora, seeks to ensure that international trade in specimens of wild animals and plants does not threaten their survival.

Suedwollegroup supports the CITES effort to provide protection of the species listed in the three appendices of CITES (<https://cites.org/eng/app/index.php>).

Same time we declare that for all wool yarns we supply the following will be valid:

- None of our wool sourced from endangered sheep species *Ovis aries ophion* or, *Ovis aries vignei* as stipulated in CITES Appendix 1
- Sourced wool is sourced from domesticated sheep species **OVIS ARIES ARIES** which is not subject to the provision of the Convention.
